This amendment was received via email on March 23, 2011 and a signed copy received on March 29, 2011. The following proposed activities are inside the boundaries of permit M/045/0024:

A pile that contains 2000 tons of coal will be buried on site, to a depth of four feet, and final grading done, as per rule R645-301.553.252 and the letter from the Department of Environmental Quality letter dated January 27, 2011. **You may commence with your activities as outlined.** Please be advised that you are bound by the same mining and reclamation standards as outlined in the original NOI and in the R647 rules, and you must receive written acceptance from this office prior to creating any additional disturbance.
